You cannot claim a Medicare rebate for your MRI scan due to restrictions on MRI licenses placed by the Government. The fee for MRI at Envision Medical Imaging is substantially discounted and is near the 'gap' fee of other premium MRI services in Perth. Private Health Funds do not currently cover the cost of MRI scans done anywhere in Australia.

The MRI scanner is a very strong magnet which can adversely affect certain metals or implanted devices. Please answer the following questions carefully to ensure your safety.

The MRI technologist will answer any queries prior to your scan.

Please circle your response and answer all questions on both sides of this page.
